

## Vanpooling

*Tired of that daily commute to and from Missoula?*

### Then join an iRide Vanpool!

Vanpooling helps you save money on gas, oil, insurance, parking, and wear and tear on your vehicle.

Did you know the average cost of operating your own vehicle is over 50¢ per mile? The cost of vanpooling is about 8¢ per mile.

Plus, you get the benefits of networking with other commuters and making new friends.

The vanpool program is a subscription commuter service. The seats are available on a first come basis. A rideshare application and rider agreement are required to be on file with MRTMA prior to utilizing the service. **These forms can be obtained by calling the MRTMA office or online at [mrtma.org](http://mrtma.org)**

### No routes in your area?

New routes are determined by demand for service. If you are interested in a new route or starting a vanpool for your worksite, MRTMA can assist you!

## Carpooling / Ridesharing

Carpooling, sometimes called ride sharing, simply means 2 or more people sharing a ride.

MRTMA's carpooling service is **FREE**. It's a publicly funded program that helps commuters in Missoula, Ravalli and Lake Counties share rides to and from work or school.

Carpooling is better for the environment and saves you money!

### Park & Ride Sites

**Tired of searching for parking spaces or running to fill the parking meter?**

There are alternatives designed to be safe, cost effective and easy to use.

MRTMA and the Montana Department of Transportation continue to develop a series of Park & Ride sites along the Highway 93 corridor as well as I-90.

MRTMA is working with the Parking Commission, the University of Montana and various Missoula employers to create preferential parking areas for car and vanpoolers.

You can give up circling the block looking for that elusive parking space!
